GAURAV KUMBHAR

DATA ANALYST | BUSINESS INTELLIGENCE | SQL, POWER BI & PYTHON

Pune, Maharashtra,India | ☎+91-9379099635|Email ✉:kumbhargaurav24@gmail.com |linkedin.com/in/gauravkumbhar24/ | github.com/GAURAV24-CODE

PROFESSIONAL SUMMARY

MCA student (2025–2027) with a BCA background (CGPA: 8.85) and hands-on experience in data analytics through internships and practical projects. Proficient in SQL, Python, Power BI, DAX, Power Query, Excel, and data visualization. Experienced in data cleaning, ETL, exploratory data analysis (EDA), statistical analysis, and developing interactive dashboards. Skilled at transforming raw datasets into actionable business insights and supporting data-driven decision-making. Seeking an entry-level Data Analyst opportunity.

TECHNICAL SKILLS

- **Programming & Querying:** SQL (Joins, CTEs, Subqueries, Window Functions), Python
- **Data Analysis:** Pandas, NumPy, Data Cleaning, ETL, Data Wrangling, Exploratory Data Analysis (EDA), Statistical Analysis
- **Business Intelligence:** Power BI, DAX, Power Query, Data Modeling, KPI Dashboards, Advanced Excel, Data Storytelling
- **Databases:** PostgreSQL, MySQL
- **Data Visualization:** Matplotlib, Seaborn, Streamlit
- **Machine Learning :** Scikit-learn, Regression, Classification, Model Evaluation, Cross-Validation, Hyperparameter Tuning
- **Tools & Platforms:** Git, GitHub, VS Code, Jupyter Notebook, Google Colab,Streamlit

EDUCATION

SSBT College of Engineering & Technology — Jalgaon | *Master of Computer Applications (MCA) | 2025 – 2027 (Expected)*
M.J. College, Jalgaon | *Bachelor of Computer Applications (BCA) | 2022 – 2025 | CGPA: 8.85*

WORK EXPERIENCE

Data Science Intern CodeAlpha — Remote **Jun 2026 – Jul 2026**

- Performed data cleaning and ETL on datasets with 5,000+ records, reducing data inconsistencies by 30%.
- Designed interactive Streamlit dashboards with 5+ KPI visualizations that turned analytical findings into insights for non-technical stakeholders.
- Delivered 3+ end-to-end data projects using Python, Pandas, NumPy and Scikit-learn.

Data Scientist Intern Rubixe – AI Solutions Company — India **Aug 2025 – Nov 2025**

- Cleaned, transformed and explored datasets with Python, Pandas and NumPy to prepare them for reporting and analysis.
- Wrote SQL queries and built visualizations to analyze data and extract insights that supported data-driven decisions.
- Applied statistical analysis and feature engineering, and evaluated Scikit-learn models for predictive analytics projects.

Data Science Apprentice DataMites — Pune,IN **Apr 2025 – Aug 2025**

- Completed a structured apprenticeship covering Python, SQL, statistics, data analytics and data visualization.
- Practiced data cleaning, preprocessing and exploratory data analysis on real datasets.

PROJECTS

FinTech Credit Risk Analytics

***Tech Stack: Power BI, DAX, Power Query, SQL, Python|GitHub**:FinTech-Credit-Risk-Analytics*

- Built an interactive Power BI dashboard analyzing credit risk indicators, customer credit profiles, loan distributions and good-versus-bad credit patterns.
- Prepared data with SQL, Python and Power Query, and wrote DAX measures for KPIs that show risk patterns across loan purpose, duration and state.

COVID-19 Unemployment Analysis (India)

***Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn, Streamlit | Live Demo**: pendamicunemploymentt.app*

- Processed over **10,000+** regional and temporal records across **28 Indian states** to visualize seasonal patterns via an interactive Streamlit dashboard."
- Built an interactive **Streamlit dashboard** with 5+ KPI visualizations and month-over-month trend tracking.

DiaCare – Diabetes Risk Screening & Prediction Web Application

Tech Stack: Python, Pandas, NumPy, Scikit-learn, Flask, Machine Learning, Render *Live Demo*:https://diecare.onrender.com

- Developed a Flask-based web application that uses a machine learning model to predict diabetes risk based on **8 health**-related input features.
- Processed eight input variables: **Pregnancies, Glucose, Blood Pressure, Skin Thickness, Insulin, BMI, Diabetes Pedigree Function and Age.**
- Deployed the application on Render, making the ML-based screening tool accessible through a public web interface.
