GAURAV KUMBHAR

DATA SCIENTIST | MACHINE LEARNING | PYTHON & SQL

Pune, Maharashtra,India | +91-9379099635|Email :kumbhargaurav24@gmail.com |linkedin.com/in/gauravkumbhar24/ | github.com/GAURAV24-CODE

PROFESSIONAL SUMMARY

MCA student (2025–2027) with a BCA (CGPA 8.85) and hands-on machine learning experience from internship and apprenticeship programs. Builds end-to-end ML projects in Python and Scikit-learn, from data cleaning and feature engineering to cross-validated model evaluation, and deploys them as interactive Streamlit apps. Seeking an entry-level Data Scientist role to turn data into predictive, practical solutions.

TECHNICAL SKILLS

- **Language & Database:** Python, SQL,PostgreSQL,MySQL
- **Data Science:** Pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Feature Engineering
- **Machine Learning:** Scikit-learn, Regression, Classification, Model Evaluation, Cross-Validation, Hyperparameter Tuning
- **AI Concepts:** NLP Fundamentals, Generative AI, Large Language Models (LLMs)
- **Visualization& BI:** Matplotlib, Seaborn, Power BI,DAX Excel
- **Data Engineering**: ETL Pipelines, Data Ingestion, Data Transformation, Data Integration, Data Quality Validation, Python-based Data Processing
- **Tools & Deployment:** Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Streamlit

EDUCATION

SSBT College of Engineering & Technology — Jalgaon | *Master of Computer Applications (MCA) | 2025 – 2027 (Expected)*
M.J. College, Jalgaon | *Bachelor of Computer Applications (BCA) | 2022 – 2025 | CGPA: 8.85*

WORK EXPERIENCE

Data Science Intern CodeAlpha — Remote **Jun 2026 – Jul 2026**

- **Delivered 3+ machine learning projects**, from raw data ingestion to deployment using **Python, Pandas, NumPy and Scikit-learn**.
- Cleaned and preprocessed **5,000+ records**, reducing data inconsistencies by **30%** and improving model training reliability.
- Built **Streamlit apps** with 5+ KPI visualizations to present ML predictions and findings to non-technical users.

Data Scientist Intern Rubixe – AI Solutions Company — India **Aug 2025 – Nov 2025**

- **Team Leadership**: Led and collaborated cross-functional data science tasks, coordinating project milestones and achive projects diliverables.
- **Data Cleaning & EDA**:Excuted Exploratory Data A nalysis using sql, &python ,uncover Data Trends and build visualization to support Analysis.|
- **Data Analysis & Visualization**: Used SQL and data visualization techniques to analyze datasets, identify patterns, and generate actionable insights.

Data Science Apprentice DataMites — Pune,IN **Apr 2025 – Aug 2025**

- Completed a structured data science apprenticeship covering Python, statistics, SQL and machine learning.
- Practiced data preprocessing, EDA and feature engineering on real datasets.
- Built and evaluated regression and classification models to compare algorithm performance.

PROJECTS

Car Price Prediction

***Tech Stack: Python, Pandas, NumPy, Scikit-learn, Regression, Streamlit | Live Demo**: mycarspri.app*

- Engineered features and applied cross-validation along with evaluation metrics (**R^2, RMSE, MAE**) on **5,000+ records** to achievepredictive accuracy with reduced overfitting
- Deployed the model as an **interactive Streamlit app** for real-time price estimates.

DiaCare – Diabetes Risk Screening & Prediction Web Application

Tech Stack: Python, Pandas, NumPy, Scikit-learn, Flask, Machine Learning, Render *Live Demo:* *https://diecare.onrender.com*

- Developed a Flask-based web application that uses a machine learning model to predict diabetes risk based on **8 health**-related input features.
- Processed eight input variables: **Pregnancies, Glucose, Blood Pressure, Skin Thickness, Insulin, BMI, Diabetes Pedigree Function and Age**.
- Deployed the application on **Render**, making the ML-based screening tool accessible through a public web interface.

COVID-19 Unemployment Analysis (India)

***Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn, Streamlit | Live Demo**: pendamicunemploymentt.app*

- Processed over **10,000+** regional and temporal records across **28 Indian states** to visualize seasonal patterns via an interactive Streamlit dashboard."
- Built an interactive **Streamlit dashboard** with 5+ KPI visualizations and month-over-month trend tracking.
